G.I.V.E. Tidbits...

- The prevalence of transgender individuals in the Veteran population is $5x$ higher than in the general US population.
- Transgender Veterans have unique mental health and preventive care needs.
- Many transgender individuals worry about providers’ reactions to their gender identity or sexual orientation - they may not know what to expect.
- The G.I.V.E. clinic provides a safe, comfortable, and welcoming setting to address all of your health concerns. Learn more...

G.I.V.E. Groups

- X 6991 – Team Line / Ms. Arbogast
- X 5030 – Team Line / Ms. Bizub
- X 5587 – Scheduling / Tike’ta
Our Mission

• To provide a safe, comfortable, and welcoming medical “home” for veterans who are exploring their gender identity.
• To provide comprehensive primary, mental health, preventive, and hormonal care for transgender veterans.

Our Story

• Transgender veterans have unique medical and mental health needs which are best addressed using a comprehensive, multidisciplinary approach.
• Focus groups with transgender veterans indicated that they wanted to be seen in a dedicated, gender-neutral clinical space by informed providers from a variety of specialties.
• The G.I.V.E. Clinic was opened at the Louis Stokes Cleveland VAMC in November, 2015 to serve all transgender veterans.

What We Provide

• A safe, comfortable, welcoming, gender neutral environment and
• Comprehensive primary care
• Mental health care
• Social work services
• Support groups
• Community outreach
• Shared medical appointments
• Specialty consultation (speech therapy, pharmacy)
• Pre-operative and post-operative care

Our Impact

• 20 new consultations in 6 months
• 65 Veterans currently enrolled
